

Report Template for CRISM Prairie Node Funding Support

The CRISM Prairie Node provided one-time funding up to \$10,000 CAD to support combined research and knowledge exchange activities in the area of substance misuse interventions. We ask that you provide the following information regarding use of the one-time funding awarded. Information requested is required for our report back to CIHR.

Name:

Date Funding Received:

Title of Project:

Project Summary:

Report Criteria:

Successful applicants agreed at the time of funding to:

(a) Formally acknowledge Prairie CRISM Node/CIHR funding on written and digital materials related to their research and/or knowledge exchange activities receiving full or partial Node funding.

Please list materials produced or supported through this funding:

Has the acknowledgement of CRISM Prairies funding on these materials been completed? Yes/No

If no, when will this be completed? Date: ___ N/A, acknowledgement of CRISM Prairies funding will be included on future materials

(b) Provide Prairie Node Membership accessible copies of research protocols, datasets (if applicable), as well as training and other knowledge exchange materials for inclusion on the Node website.

If materials have not yet been provided, please state when the materials will be provided?

Date: _____

The Prairie Node agreed to profile supported projects and Members on its website.

Have you provided a short biography and picture for the website? Yes/No

If no, when will you provide these materials? Date: _____

Process and Review Report:

1. How have project activities, as described in the application, contributed to building the CRISM Prairie Node? (I.e., created effective and trusting collaborative working relationships among Node Members and stakeholders?)

2. How have the project activities described in the application created and disseminated resources for substance misuse interventions that are of value to researchers, service providers, and consumer advocates across the Prairie Provinces and Territories.

3. Has the project described in the application led to further funding applications or development? (I.e., CIHR project grants, health system funding for operational support, or knowledge exchange and translation activities) If yes, provide details.

4. Number of participants from your project (by gender).

5. How research participants may have benefited from participating in your study.

6. Potential impacts of your study on stakeholders and anticipated outcomes.

7. Information about trainees involved in the project including Type (undergrad, masters, doctoral, post-doc, fellow) and Graduation Year (actual or predicted) even if they were not directly funded by this grant.

Type of trainee	Indigenous Y/N	Start date	Completion date	Funded by this grant Y/N

8. Information about staff involved in the project including type (project coordinator, research assistant, etc.,) and dates started and stopped and even if they were not directly funded by this grant.

Type of staff	Indigenous Y/N	Involvement Start date	Involvement end date	Funded by this grant Y/N

9. Please list any presentations (event, location, dates, list of authors), publications, reports and media events for this project including type of media event (print, tv, radio or internet).

10. Please provide any stakeholder, node member, or student involvement in the project that was not included in the original proposal. This should include a) name, b) position title, and c) description of how this person was involved with the project.

Thank you!
